

Insulation Cladding Price List : August 2011

Notes:

1 : Straight Rolled Casing prices are per linear metre. We will punch 3mm holes at 150mm centres unless advised to the contrary. Circumferences above 280mm will usually be supplied in 1-metre lengths - below 280mm will be supplied in 500mm lengths. (Some metal types may be in 1250mm / 625mm lengths).

2 : Elbows are priced for any angle up to 90 degrees, ball-swaged, 75mm throat length. Back-fix or Throat-fix is double the standard price as are Elbows and Set Elbows made in halves.

3 : Bends are priced for any angle up to 90 degrees, standard Centre radius (See chart at back of this list). Back-fix or Throat-fix is double the standard price as are Bends and Set Bends made in halves.

4 : Tees are priced for 90 degree only, equal or unequal, 75mm throat length, ball-swaged. Angled and offset Tees are also available as are saddles with the hole cut out for the branch - contact us for further information

5 : Cap Ends are supplied in two equal halves with 75mm skirt. Diameters below 100mm will be manufactured as a Ball-swaged sleeve & disc.

6 : Flange Boxes are supplied in two equal halves with zinc-plated toggle fasteners / screws, Flat-Backs + 20%, Extra splits + 10% each. Minimum diameter = 115mm

7 : Valve Boxes are supplied in two equal halves with zinc-plated toggle fasteners / screws, extra splits + 20% each, rectangular boxes + 10%, Slant type + 50%. Minimum diameter = 115mm

(Please note that due to the many types of Valve in use the Flange and Valve box prices given in this list are for guidance only and are based on the tables of sizes included at the back of this list. The price charged will be calculated on the actual size and type of box supplied. On smaller bore pipe-work a saving can often be made by the use of Cylindrical Valve boxes / Flange boxes in place of 'D' type boxes)

8 : Circumferences - At the back of this price list are tables which show the circumferences we will use for the manufacture of cladding to suit Plain Glass & Foil Faced Insulation unless told otherwise. Due to the wide tolerances used by the Insulation Manufacturers and the subsequent inconsistencies in the sizes of their materials, we would recommend that the circumference over insulation be supplied when ordering and that this measurement be taken from an installed piece and not from a piece out of a box. Prices in this list are based on Plain Glass Insulation. We will usually insist on being given circumferences for Koolphen, Mag' sections and most insulation thickness' over 50mm.

9 : Measuring of jobs on clients behalf can be arranged at a rate of £ 37.50 per hour including travelling time, plus travelling costs of £ 0.50 per mile.

10 : Delivery A charge of £20.00 per consignment will be made for any delivery within 15 miles of the M25. Rates for deliveries outside this area or for timed deliveries are negotiable. Special deliveries by carrier / courier will be charged at the rate charged to us.

Please note that any times or dates given for delivery are estimates only - while we will make every effort to comply with such times, it is not a guarantee and we will not be liable for any failure to deliver nor for loss or consequential loss arising from delivery/non delivery howsoever caused.

11 : Discounts in the form of a rebate based on clients nett monthly turnover will be awarded according to the following table:

Nett Monthly turnover Excl VAT	Discount Applicable
£Zero to £4,999	NIL
£5,000 to £9,999	5%
£10,000 plus	10%

12 : Availability we stock a range of approximately 2,000 Elbows, Set Elbows and Equal Tees in Stucco Aluminium and casing to suit can usually be produced within a few hours. Bends, Valve & Flange boxes are made to order with a two to three day turn-around depending on pressure of work. Please contact us with your specific requirements and we will endeavour to give a firm delivery date - we try not to make a promise that we can't keep.

13 : Victaulic Fittings :

As an alternative to Cheese Boxes on Victaulic Bends and Sets, we can offer an economical and aesthetically pleasing solution in the form of an oversized elbow/set fitted with reducers at each end. Similarly, for Tee pieces we can offer an oversize Saddle, Tee and Reducers.

When pricing these items please follow the following criteria:

Bends/Elbows/Sets : allow three times the Elbow price for the next size up. i.e. Pipe Size is 168mm O/D plus insulation - allow three times the price of the 219mm O/D elbow.

Tees : allow four times the Elbow price for the next size up. i.e. Pipe Size is 168mm O/D plus insulation - allow four times the price of the 219mm O/D elbow.

STANDARD TERMS & CONDITIONS OF SALE
D & S SHEET METAL LIMITED ('The Company')

1. **ORDERS** The Company is not willing to contract other than on these conditions and any printed or standard conditions which appear or are referred to on any documents emanating from the purchaser are to have no legal effect whatsoever. No order shall become binding upon the Company until it has been expressly accepted by the Company in writing. All orders are to be confirmed in writing.
2. **VARIATION** No alteration to the Contract or any conditions shall be binding on the Company unless agreed in writing
3. **PRICES** The Company reserves the right to alter any prices without notice due to market fluctuations, Government levies, National or EEC price increases
4. **DELIVERY** Times or dates for delivery are estimated figures only. The Company shall make every effort to comply with such times, but is not a guarantee. The Company will not be liable for any failure to deliver nor for loss or consequential loss arising from delivery/non delivery howsoever caused.
5. **TERMS FOR PAYMENT** Payment of all monies due in respect of the delivery is due by the end of month following date of invoice. Any monies outstanding after this date the Customer, at the discretion of the Company shall pay interest at the rate of 1.5% per month. from due date for the total amount overdue until paid.
6. **RISK** Risk in the goods shall pass to the purchaser on delivery notwithstanding that ownership will not pass until payment is received in full. The property of the goods sold shall remain with the Company until the purchaser pays for them in full and the purchaser shall have possession of them until payment in full as a bailee only. Should the goods or materials supplied by the Company become incorporated, mixed, combined or processed with other property, legal ownership of that product shall be vested in the Company until such time as payment is received in full of the contracted price and the Customer shall be the bailee of the goods for the Company.
7. **INSOLVENCY OF CUSTOMER** The Customer shall grant an irrevocable licence to the Company or its agents, with or without vehicles, to enter on to the Customers premises to take possession of the Companys goods. In the event of any resale by the Customer of the Companys goods, the beneficial entitlement of the Company shall attach any claim against the Customers purchaser and to any proceeds of that sale so that such claims or proceeds of sale shall be held in trust for the Company and the Customer shall have a fiduciary duty to account to the Company for that claim and any proceeds of sale. Where proceeds of such resale are received by the Customer, he shall keep them in a separate account as agent for the Company until the proceeds are handed over to the Company.
8. **LOSS OR DAMAGE IN TRANSIT** The Company accepts liability for loss or damage while in transit to the Customer except where goods are collected by the Customer or its agents, provided the Company is notified by the Customer in writing within 3 days of delivery. Any discrepancies as to amounts or quantities should be advised immediately and confirmed in writing within 3 days and an opportunity given to recount.
9. **LIABILITY** The Company gives no express or implied warranty and accepts no liability whatsoever (direct, indirect or consequential) whether in contract or tort as to materials, workmanship, performance, design or specification, suitability for any particular purpose or any other aspect of the goods, their characteristics or behaviour except that a good title is warranted to the goods sold and that liability for death or personal injury as a result of the Companys negligence and liability under the consumer protection act 1987 may not be excluded or limited. The Company shall not be under any liability once the goods have been worked on or processed, nor for any defect arising out of an error of Customer specification.
10. **RETURNS FOR CREDIT** The Company disclaims liability for goods returned without the written consent of the Company. Any goods approved for return must be advised in writing quoting the Companys invoice/advlce number. The Company reserves the right to charge a reasonable handling charge, where this is justified.
11. **FORCE MAJEURE** The Company shall be under no liability if it should be unable to carry out any provision of the Contract for any reason. beyond its control including (but without limiting the foregoing) act of God, legislation, war, fire, failure of power supply, lockout, strike or other industrial dispute or inability to produce materials required for the performance of the Contract, the Company shall not be responsible for any delay or non delivery caused by the foregoing.

Data Protection Act 1998 : We will make a search with a credit reference agency, which will keep a record of that search and will share that information with other businesses. We may also make enquiries about the principal directors with as credit reference agency

Aluzinc is a mild steel sheet continuously hot dipped with an Aluminium / Zinc coating (approx. 55% Aluminium 43.4% Zinc) coating weight - 185 grammes per square metre. It has excellent corrosion resistance properties - at least six times that of galvanised sheet (An Aluzinc sheet has withstood 12 years of constant salt spray testing at Dungeness Power Station without red rust corrosion at any corner edge of face)

We usually have the following types & gauges in stock

0.4mm Flat Aluzinc

0.5mm Flat Aluzinc

0.7mm Flat Aluzinc

0.5mm Petrochem Aluzinc (Reeded 1mm profile)

0.5mm Dobelshield Aluzinc (Stucco Embossed)

Please note that we cannot guarantee the spangle / appearance on the 0.4mm and 0.5mm will be the same. If you are ordering both gauges for a single job then there may be a visible difference in each metal. Please bear this in mind when ordering.

0.5mm Flat Aluzinc by Circumference

Miscellaneous Prices - Cont.....**Sheets :**

We can de-coil to any length by 1000mm wide :

Metal Type & Gauge	per Sq Metre	2000 x 1000	2500 x 1000
0.5mm Flat Aluzinc	7.36	14.72	18.41

Sundries :

Item Description	Unit Price	Unit of Supply
1/2" No.8 Stainless, Pan-head Pozi Self tap Screws	11.15	per thousand
1/2" No.8 Zinc-plated, Pan-head Pozi Self tap Screws	5.99	per thousand
3.2mm Aluminium Blind Multi-grip rivets	8.70	per thousand
3.2mm Stainless Steel Blind rivets	44.00	per thousand
3.3mm HSS Stub Drill bits	0.90	each
3.3mm Cobalt Stub Drill bits	2.21	each
Zinc Plated Toggle & Hook fastener	0.14	each
Stainless Steel Toggle & Hook fastener	0.35	each

Duct Cladding

Duct cladding is supplied at four different rates that vary according to quantity and method of manufacture

Rate 1 : This rate applies to Folded, Rolled or Lock-formed sheet and allows for straight parallel lines with two folds only and no pattern development

Rate 2 : This rate applies to Folded and Lock-formed sheet and allows for straight parallel lines with up to four folds and no pattern development

Rate 3 : This is a composite rate and allows for the manufacture of any item (except Square to Rounds) when it is part of a complete order of no less than 100 square metres, However, depending on the ratio of Straight to Fittings it may be better to calculate the areas of Straight and Fittings separately when doing your take off and apply Rate 1 and Rate 4 accordingly, from our experience this is usually the more economical option.

Rate 4 : This rate applies to any specially manufactured items such as Bends, Sets, Reducers, Boot Tees etc when ordered as a single item or as part of an order the total requirement of which is less than 100 square metres

Square to Rounds : These will be charged at Rate 1 plus a surcharge of £22.00 each

Duct Cladding Rates

Metal Type & Gauge	Rate 1	Rate 2	rate 3	Rate 4

Calculating Circumferences

Diameter= OD + (Ins x 2)

Circ = Diameter x pi (Where pi = 3.142)

For foil faced insulation we add 2mm to the diameter before multiplying by Pi

Overlap :

Up to 255mm circumference we add 25mm overlap

From 256mm to 356mm circumference we add 30mm overlap

From 357mm to 1150mm circumference we add 40mm overlap

For circumferences greater than 1150mm we add 50mm overlap

If you require larger / smaller overlap then please specify at time of order

Nominal Bore (Inches)	O/D	Centre Radius
½" Copper	15	96
½" Iron : ¾" Copper	22	96
¾" Iron : 1" Copper	28	96
1" Iron : 1¼" Copper	35	96
1¼" Iron : 1½" Copper	42	96
1½" Iron	48	96
2" Copper	54	96
2" Iron	60	96
2½" Copper	67	96
2½" Iron	76	96
3" Copper	80	115
3" Iron	89	115
4" Copper	108	152
4" Iron	114	152
5" Iron	140	191
6" Iron	168	229
8" Iron	219	305
10" Iron	273	381
12" Iron	324	457
14" Iron	356	533
16" Iron	406	610
18" Iron	456	686
20" Iron	511	762
24" Iron	610	915
28" Iron	711	1067
30" Iron	813	1220

The number of segments will vary according to the O/D and Insulation thickness. Please advise us of your specific requirements.
 On Duct bends, if you give us the segment size, diameter and number of complete segments in the bend (Measured bare of insulation) plus the circumference over insulation. We can calculate the Angle and Centre Radius of the bend from this information
